Height: 20.5
Bell diameter: 57.31

JENS BJØRN-LARSEN WITH THE NEW CC-TUBA 5450 “THOR”

Jens Bjørn-Larsen is a renowned clinician throughout Europe. Currently, he is Professor for Tuba at the Hannevold University after being principal Tubaplayer in the Radio Symphony Orchestra Copenhagen from 1986 until 2005.

The new CC-Tuba 5450 „Thor“ is a real all-round instrument with a lot of „hammer“ sound - this newly designed model features a great resonance, a solid low register and a huge sound.
